

Workshops Summer Institute Professional Development Courses

Contact Lucie deLaBruere to learn more about Professional Development Opportunities

Create Make Learn Institute

Since 2012 The Create Make Learn Institute has brought a unique professional development opportunity where educators:

- Create Confidence with Hands on Workshops using Maker/STEAM tools.
- Complete and share a Meaningful Making Project applying their learning through design, creating, and making
- Plan a curricular unit or school project where creating and making are central to learning goals and provide opportunities for students to develop growth or proficiency of Vermont Transferable Skills
- Connect with community and get inspired by peers that best meet their needs (PreK / Elementary /Middle School / High School)

Professional Development Options

- Summer Institutes: a week long intensive. Bring the summer institute to your organization or sign up to get notified of next year's location.
- Custom-designed Professional Development for your organization (from one day inservice to semester long courses)
- Fall or Spring Residencies that model curricular integration with students while providing just in time skillbuilders with tools for teachers
- One on One coaching with individuals or teams
- Collaborations with partner organizations
- Virtual Learning Options

Contact Lucie to discuss which format works best for you.
